

A blank sheet of white graph paper featuring a uniform grid of thin black lines. The grid consists of 10 columns and 10 rows, creating a total of 100 small squares. A thicker vertical line runs down the center, separating the first five columns from the last five columns. Similarly, a thicker horizontal line runs across the middle, separating the first five rows from the last five rows. These two lines intersect at the exact center of the page, dividing it into four equal quadrants of 5x5 squares each. The overall appearance is clean and professional, typical of standard graph paper used in mathematics or science classes.
